External Doors

External doors are available in a wide range of sizes and finishes – ask for further details at your local Benchmarx branch, our joinery specialists can offer all the advice you'll need to help you complete your project.

External Doors

Typical External Door

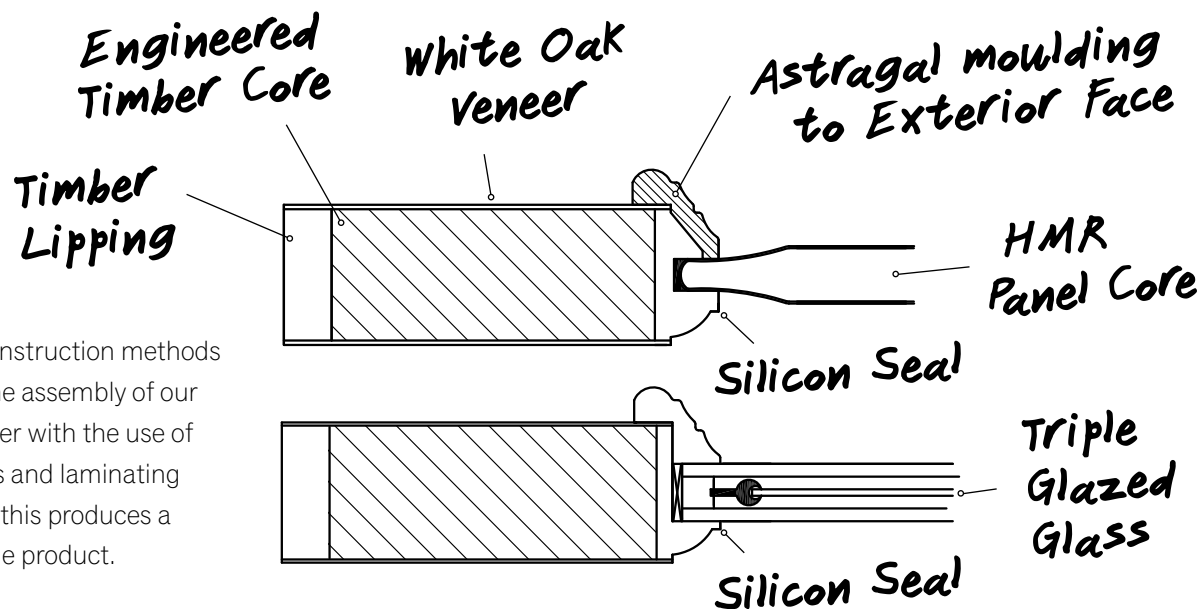

Multi-Panel Door Construction

Our hardwood external doors are built to last – we use a variety of assembly techniques, ranging from traditional mortice and tenon joints, to glue and dowel construction.

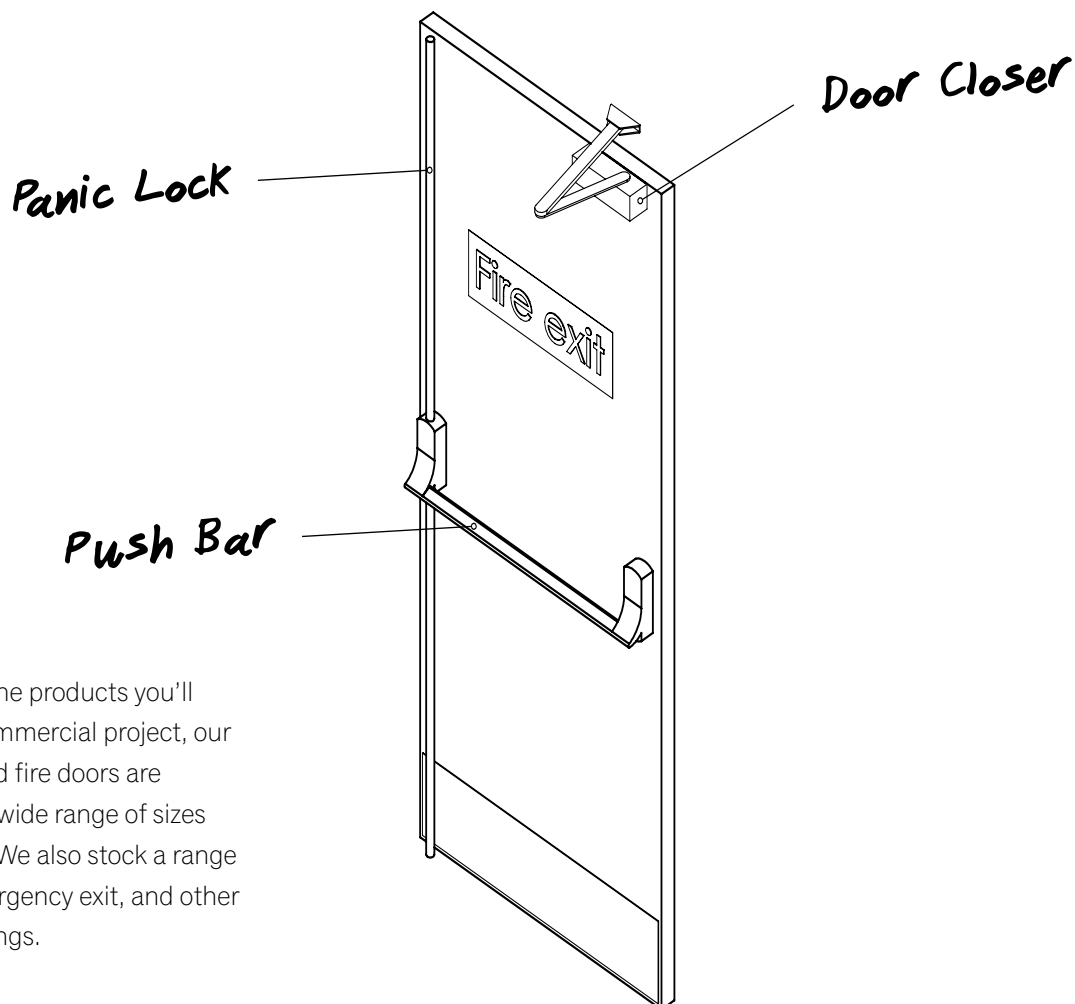

External Doors

Traditional Assembly Methods

Traditional construction methods are used in the assembly of our doors, together with the use of modern glues and laminating techniques – this produces a durable, stable product.

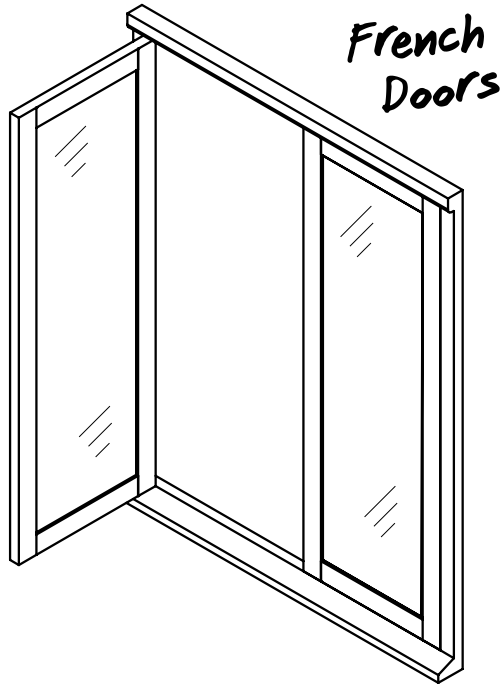

Commercial Applications

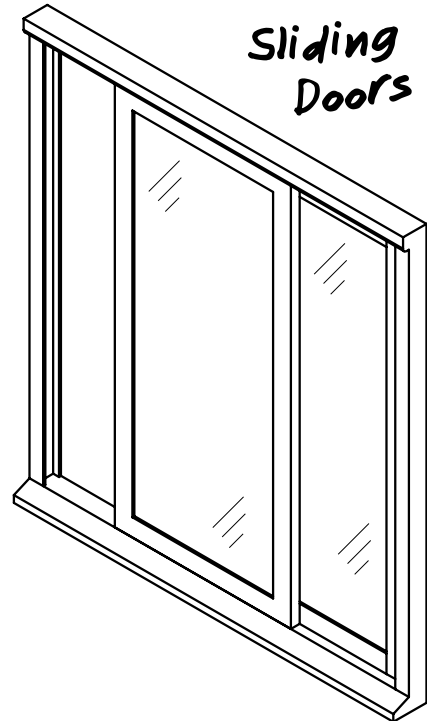

We stock all the products you'll need for a commercial project, our plywood-faced fire doors are available in a wide range of sizes and finishes. We also stock a range of panic, emergency exit, and other specialist fittings.

External Doors – French, Sliding and Folding Doors

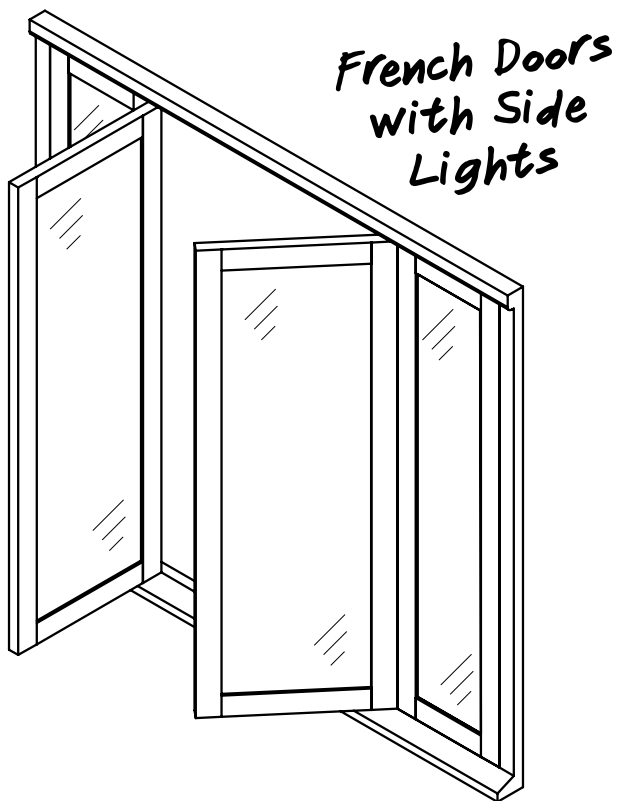

Our range of sliding and bi-fold doors give the opportunity to create your own grand design. Open up the home interior to fresh air and outdoor lifestyle – perfect for a summer barbeque and friends!

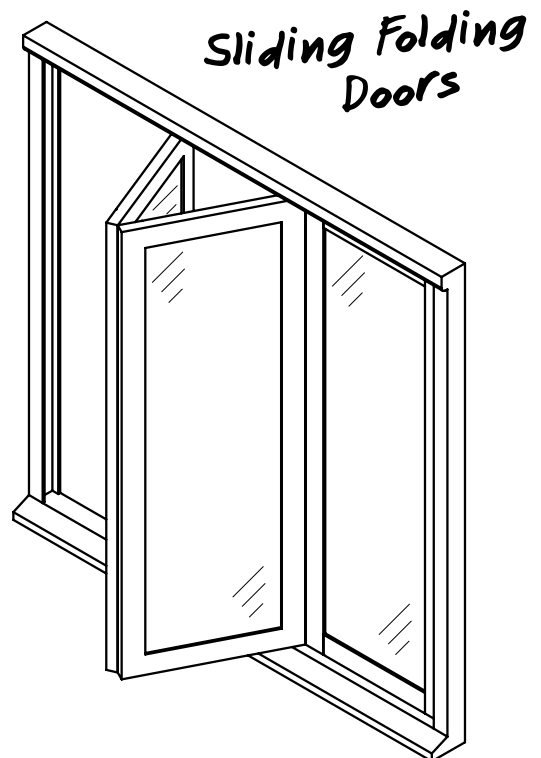

The traditional solution for patio living

Modern convenience and versatility

If you have more space, why not bring more light into your home?

Let the outside in!!
